BALLOT FOR CHANGE OF COMMISSION MEMBERSHIP:

Members of the Executive Committee of the Middle Snake Regional Water Resource Commission voted that the Commission be expanded to include two commission members from each county. They further recommended that at least one member be affiliated, in some way, with each county's planning and zoning commission. The Executive Committee believes the impact to the Commission budget will be minimal. The only increases will be to budgets for travel and postage. The Executive Committee further believes that the benefits from having an additional member will far outweigh the cost. It will better insure that each county is represented at each meeting and would increase communication with each county's planning and zoning commission. The Commission is currently dealing with some pretty heavy issues for our region concerning water quantity and quality issues so the more regional input the better.
